

## AFFIRMATIVE FAIR HOUSING MARKETING PLAN GUIDE

---

### INTRODUCTION

Affirmative Fair Housing Marketing Plan (AFHMP) should demonstrate meaningful efforts to identify and attract underserved populations in the housing market area. Underserved populations may not apply for housing without special outreach efforts.

This guide was developed to assist someone developing or updating an Affirmative Fair Housing Marketing Plan (AFHMP) required by HUD, Low-Income Housing Tax Credit (LIHTC) Qualified Allocation Plan or National Housing Trust Fund.

### BACKGROUND

HUD implemented Affirmative Fair Housing Marketing Plans to prevent redlining in communities (segregating race or ethnicity in defined housing areas). Properties need to make efforts beyond their normal or current advertising to directly reach and successfully attract underserved populations to increase diversity. The affirmative marketing plan should strive to house both majority and minority populations represented in the housing market area thus ensuring that segregation/redlining does not intentionally occur.

### WHAT IS AFFIRMATIVE MARKETING?

Affirmative Marketing means to understand the housing market area's demographics, identify underserved populations then implement marketing efforts beyond current or usual methods of advertising to increase a more diverse applicant pool and house a more diverse population. It often requires taking extra effort to directly market to underserved populations living in the housing market areas.

Affirmative Marketing should demonstrate efforts of the owner/agent to reach underserved populations through community contacts and other direct methods of advertising.

- Direct efforts might be minority or specialized publications that can reach targeted populations i.e. magazine, newspaper, radio or television or relationships with organizations, churches, agencies or businesses who work directly with an underserved population.
- Consider the use of alternate advertising formats i.e. by translating advertising in a language used by a minority population then distributing to businesses or organizations that help the targeted group locate housing, providing alternate formats i.e. braille, large print, audio tapes, etc.
- Periodically review the special marketing efforts and evaluate successes and failures. Determine how to expand on the successes or make changes on areas needing improvement.

### AFHMP REGULATIONS

The regulations can be found in Title 24 Housing and Urban Development, Part 200-Introduction to FHA Programs, Subpart M—Affirmative Fair Housing Marketing Regulations.

## IOWA HOME & NATIONAL HOUSING TRUST FUND & LIHTC PROGRAMS

Projects that have received HUD funding (HOME funds or National Housing Trust Fund) are required to provide an AFHMP. In addition, Projects allocated Low-Income Housing Tax Credits from 2009 forward are required to complete an Affirmative Fair Housing Marketing Plan (AFHMP). All programs are following the requirements at HUD Subpart M, CFR24 Part 200.620.

At a minimum, the AFHMP for multifamily rental projects should be reviewed every five years by pulling current demographics, comparing them with current resident percentages then describing successes and/or failures with community contacts and marketing methods. For HOME Tenant Based Rental Assistance or Homebuyer Programs a new plan is required for each new contract.

The Iowa Finance Authority **requires all properties to target Persons with Disabilities**, regardless of percentages listed.

## GETTING YOUR PLAN STARTED...

### GENERAL PROPERTY INFORMATION

Regardless of the type of program, each AFHMP form will request general project information. These sections should be self-explanatory.

### GEOGRAPHIC AREAS

In order to complete an Affirmative Fair Housing Marketing Plan (AFHMP), demographics need to be pulled for the project from the geographic areas listed below:

- Census Tract,
- Housing Market Area (city)
- Expanded Market Area (county) or (Metropolitan Statistical Area (MSA))

The US Census Bureau's Data can be found at: <https://data.census.gov/cedsci/>

This website has changed how to pull reports in April of 2020. It is especially helpful to know the report number for information you want to pull.

**NOTE: New Census Data is gathered every 10 years once the new information is available use DP01 until it is updated. If updates are available, you will use DP05 to search for geographic areas.** Use the most current ACS Demographic and Housing Estimates. Example, at the time of this guide update January 2021 you would use DP05 2019 5-year estimates.

### To Locate Race and Ethnicity Percentages:

- In the search box enter DP01 or DP05
  - **DP01** American Community Survey (ACS) Demographic and Housing Estimates should be used once new **2020 Census Data becomes available. This may not be until 2021 or early 2022 or**
  - **DP05** American Community Survey (ACS) Demographic and Housing Estimates are updated estimates after the initial census data was released.
  - Use the most current information available whether DP01 or DP05.
- Select - View All Tables
- Select Customize Table
- Review the Product listed: You may need to open and select a different product (report) if the default does not have data available after making your geographic selections.
- Select geographic housing areas (**CENSUS TRACT, COUNTY and PLACE**). Close then it will take you back to the table.
- Unhighlight +/- Margins of Error
- Export to Excel - Currently you cannot print from the site it will only print the first page. Therefore, you have to export to excel.
  - HINT: It is suggested to save as a PDF file and you will likely need to decrease font and use narrow margins and adjust column size to view information on the each page.

**Race/Ethnicity Groups** – Use one race – (alone) percentages for basic races: White, Black/African American, American Indian, Native Alaskan, Asian, Native Hawaiian, Pacific Islander. Use ethnicity for Hispanic/Latino (all races).

**NOTE: If it is an updated plan or a newly rehabbed property that you have information the property contains multiracial residents then you can expand and list under “Other”**

### To Locate Disability Percentages:

- In the search box enter **S1810 (Disability Characteristics)** –

- Select - View All Tables
- Select Customize Table
- Review the Product listed: You may need to open and select a different product (report) if the default does not have data available after making your geographic selections.
- Select geographic housing areas (**CENSUS TRACT, COUNTY and PLACE**). Close then it will take you back to the table.
- Unhighlight +/- Margins of Error
- Export to Excel - Currently you cannot print from the site it will only print the first page. Therefore, you have to export to excel.
  - HINT: It is suggested to save as a PDF file and you will likely need to decrease font and use narrow margins and adjust column size to view information on the each page.
  
- Use “Total civilian noninstitutionalized population” percentage with a disability in each geographic housing area.

**To locate the Percent of Families with Children under the age of 18:**

- In the search box enter S1101 Households and Families.
- Select - View All Tables
- Select Customize Table
- Review the Product listed: You may need to open and select a different product (report) if the default does not have data available after making your geographic selections.
- Select geographic housing areas (**CENSUS TRACT, COUNTY and PLACE**). Close then it will take you back to the table.
- Unhighlight +/- Margins of Error
- Export to Excel - Currently you cannot print from the site it will only print the first page. Therefore, you have to export to excel.
  - HINT: It is suggested to save as a PDF file and you will likely need to decrease font and use narrow margins and adjust column size to view information on the each page.
  
- Find **SELECTED HOUSEHOLDS BY TYPE** then use **Households with one or more people under 18 years**. Use the **Total Estimate Percentage** for each geographic region.

**NOTE:** The US Census has updated the way reports are pulled. If you have questions please contact Nancy Peterson at the Iowa Finance Authority by email [nancy.peterson@iowafinance.com](mailto:nancy.peterson@iowafinance.com) or by phone 515-452-0449 and she can assist you when pulling data for your property.

**DEMOGRAPHIC WORKSHEET**

**Acquisition Rehab, Rehab, or an Existing Property**

If the property has existing tenants, the Project’s Resident column on the Demographic Worksheet should be completed. The existing tenant percentages should be used to analyze if a minority group is still underserved at the property. Demographic percentages should be used to analyze if the property has been successful in housing underserved populations.

**Applicant Data**

If demographic information is gathered from applicants at time of application, please complete the Project’s Applicant Data column. Otherwise, this can be left blank. These percentages should be analyzed to determine if the property has been successful attracting minority applicants and evaluate reasons why minorities who applied were not approved (e.g. no vacancy, screening, did not meet income qualifications – too high or too low all based on tenant selection criteria).

**New Construction, Adaptive Reuse or Homebuyer**

For properties that have not placed in service or have not been purchased, the Project’s Resident column will be left blank on the Demographic Worksheet. Then analysis will be based solely on the Census Tract, Housing Market Area and Expanded Housing Market Area until the next evaluation.

### **Enter All Percentages**

Once the percentages have been gathered enter the percentages into the demographic worksheet.

This allows you to start analyzing the information pulled:

### **Determine the Majority Population**

The highest percentage of all race or ethnicity in each geographical area represents the Majority Population. The majority may not need special outreach because general advertising methods and word of mouth may reach the majority population. There could be exceptions, one example, if heavy concentration(s) of one or more minority group is found living at a property and the majority population is not present or extremely low. This indicates the need to make effort to attract the majority population to proactively overcome the appearance of segregation occurring in the rental community.

### **Minority Populations (Underserved)**

Minority populations have lower percentages. Effort needs to be made to invite them to apply at the property.

### **Evaluate the Demographic Percentages Using A Consistent Method of Measure:**

IFA suggests:

⇒ **IF 1% OR GREATER = Should attempt to TARGET the underserved population**

⇒ **IF LESS THAN 1% = DON'T TARGET.**

Generally, there is not sufficient opportunity to directly advertise or reach populations with less than 1% in a demographic area. The plan should describe how the property can directly reach populations being targeted.

Are there exceptions to the 1% measure?

Yes. This guide cannot cover all exceptions or examples but here are a few:

Some demographic areas may not have a minority population with 1% or greater. The plan may need to be expanded to include a larger region or multiple counties surrounding the housing market area. This area should be expanded until you can identify at least one minority population closest to the property that has greater than 1%.

If an underserved population is known to exist in the housing area yet the demographics do not represent them in the census data, your knowledge of the community should be considered for direct marketing opportunities. If this occurs, list under "other" and specify the underserved population.

If "Other" is selected or other exceptions are identified provide additional information. Each form has a section called "Additional Considerations". Explain exceptions or additional information in this section. If necessary, attach an additional sheet with this information and place a note in this section "see attached".

### **TARGETED MARKETING ACTIVITY**

When the demographic worksheet is complete use this information to select the "Targeted Marketing Activity" in AFHMP FORM. (i.e. Section 3b. in the HUD Multifamily AFHMP)

Each group selected shall be identified in the community contact worksheet and advertising methods worksheet.

### **COMMUNITY CONTACTS AND ADVERTISING METHOD WORKSHEETS**

- List each targeted group separately on each worksheet (preferred).
- **USE A LOCAL CONTACT'S and ADVERTISING SOURCES FIRST!** The local area is the housing market area selected on the plan. It is the area that will likely attract applicants. If opportunities are not found in the housing market area, move to expanded housing market area which is the 2<sup>nd</sup> most likely area to attract applicants. Only If necessary, expand further to regional opportunities. It less likely a property can attract applicants if they are not shown to be living in the housing market areas. Statewide agencies or organizations typically will not be effective in helping many properties to attract applicants.

- **Ensure you have contacted and discussed with all contacts how they can assist your property to attract targeted underserved populations.**
- Develop positive relationships and have continued communication with these contacts. If you determine another or additional contacts are necessary, these contacts should be used to build this outreach.
- Community Contacts and Advertising Methods should be known to effectively reach specific targeted populations prior to advertising.

## **SAMPLE WORKSHEETS - COMMUNITY CONTACT AND METHODS OF ADVERTISING**

Attached to this AFHMP Guide are samples of two worksheets; one for Community Contact information required and the second Methods of Advertising. If you wish to develop your own WORD table or Excel Spreadsheet in place of the HUD worksheet this is acceptable.

Note: Because the HUD multifamily rental form is most frequently used the samples have been named Worksheet 3 and Worksheet 4.

### **MAINTAIN A FILE**

A file helps you establish:

- HOW you determined what outreach was needed.
- WHAT was done? Document actions taken.
- WHEN actions were taken.
- WHY decisions were made to change or expand efforts.

Community Contact Journal is a good way to document all special outreach efforts. A sample journal is shown on the next page.

**Community Contact Journal**

*For each underserved population identified in the Affirmative Fair Housing Marketing Plan (AFHMP), please keep records like this journal to document special outreach efforts. This will assist you when completing Community Contacts and Methods of Advertising in the plan. This information may be helpful in evaluating your marketing activities for future activities and updates.*

## SECTION 504 ACCESSIBILITY REQUIREMENTS

Section 504 of the Rehab Act makes it illegal for federal agencies, programs or activities that receive federal financial assistance or are conducted by a federal agency, to discriminate against qualified individuals with disabilities. Requirements under Section 504 include reasonable accommodation for employees with disabilities, program accessibility, effective communication with people who have hearing or vision disabilities, and accessible new construction and alterations. HOME and Iowa LIHTC properties are required to meet or exceed Section 504 accessibility requirements in that 5% of the total units must be fully accessible for mobility impairments and 2% of the total units must be accessible for persons with visual and hearing impairments.

LIHTC properties should verify property requirements by reviewing the Land Use Restriction Agreement (LURA). The selections made by the property may require an increased percentage.

## EQUAL HOUSING OPPORTUNITY ADVERTISING

All advertising of residential real estate for sale, rent, or financing should contain an equal housing opportunity logo, statement, or slogan as a means of educating the home seeking public that the property is available to all persons. The choice of logo, statement or slogan will depend on the type of media used (visual or auditory) and size of the advertisement.

- See Part 109 Fair Housing Advertising:  
[https://www.hud.gov/sites/documents/DOC\\_7781.PDF](https://www.hud.gov/sites/documents/DOC_7781.PDF)

- See HUD Web Publishing Standards:  
<http://portal.hud.gov/hudportal/documents/huddoc?id=WebPubStandards.pdf>

## SYMBOLS OF ACCESSIBILITY

Accessible facilities which meet the Uniform Federal Accessibility Standards (UFAS) 4.1, Minimum Requirements, may use the international symbol of accessibility. Please ensure the property meets these requirements if the symbol is used. The symbol shall be displayed as:

## Property Signs

Property signs shall contain the EHO logo, statement or slogan and should be visible to anyone viewing the sign. If the sign has not been constructed when the AFHMP is submitted provide copy of the planned sign design and content prepared by the sign manufacture or architect. If a site sign is not used please explain.

## PUBLIC ACCESS

Fair Housing Posters, Affirmative Fair Housing Marketing Plans, Tenant Selection Criteria, and other management policies should be displayed and made available for public review.

## **INSTRUCTION/TRAINING**

Agents and employees must be provided verbal and written instructions regarding policies of non-discrimination and fair housing. Training/instruction questions will be asked about Fair Housing Act and Affirmative Fair Housing Marketing. Dates, content and anticipated training should be tracked, and copies of training materials should be kept.

## **HIRING PRACTICES**

Owners are required to maintain a non-discriminatory hiring policy for staff engaged in the rental of properties under Affirmative Fair Housing Marketing Regulations.

## **EVALUATING THE PLAN (MINIMUM EVERY FIVE YEARS)**

The Affirmative Fair Housing Marketing Plan shall be reviewed at least every five years for multifamily projects. The AFHMP may need to be updated if the demographics of the housing areas have changed. The AFHMP may need updated if the property did not have success in attracting targeted underserved populations.

Homebuyer and Tenant-Based Rental Assistance projects should have a new plan for each contract awarded. Evaluate the previous contracts' success or failure attracting minority or underserved populations. Then then change community contacts or advertising methods that have not been shown to attract targeted populations.

### **Tenants/Applicants should provide:**

- How have they heard about the property?
- If they could benefit from accessible features in the unit?
- Race and ethnicity information, if willing to provide. If a race or ethnicity is unknown a percentage for unknown should be identified.

### **The Property should:**

- Document advertising methods and maintain copies of ads used to attract targeted populations and the general public.
- New demographics should be pulled and input into a demographic worksheet. Compare with previous data to determine if changes have occurred.
- Does demographic data accurately represent the property over the last five years?
- Has targeted populations increased or decreased?
- Determine if the demographic composition of the residents have changed?
- Document dates and content of communication with community contacts. Were relationship's successful?
- Did the advertising methods attract targeted populations?
- Is training and instruction current? If no, update the plan and document updated training for staff.
- Describe how the previous plan has been successful and remains valid or provide an updated plan to implement going forward.

## **THE GOAL**

- **ATTRACT TARGETED APPLICANTS** – Ensure underserved populations have knowledge of housing opportunities and are offered housing without discrimination for persons who qualify.
- **DIRECT MARKETING IS ONGOING** – Demonstrate meaningful attempts to increase underserved populations. (Race, Ethnicity, Persons with Disabilities, Families with Children, etc.)
- **REVIEW AND ADJUST** – Review demographics by making a conscience effort to understand the community and changes in underserved populations in the market area. Adjust contacts or methods of advertising if needed.
- **INCLUSIVE AND DIVERSE** – The property should strive to house both majority and minority populations represented in the housing market areas thus ensuring that segregation or redlining does not intentionally occur.

## ADDITIONAL PROPERTY INFORMATION FOR RENTAL PROJECTS

Supply copies of these documents with your AFHMP this may be required by the Qualified Allocation Plan which the property was allocated:

- Lease
- Lease Addendums
- Tenant Selection Criteria
- Community Rules and Regulations
- IowaHousingSearch.org advertising

### REVIEW THE AFHMP FOR COMMON ERRORS PRIOR TO SUBMITTING FOR REVIEW!

#### PROJECT NUMBER

**Problem:** The plan does not correctly list the project number that requires the AFHMP. The HOME Program, National Trust Fund and/or LIHTC project number are missing or incorrectly listed. Housing Tax Credit Projects allocated prior to 2009 did not require an AFHMP.

#### TARGETED MARKETING (Selecting Underserved Populations)

**Problem:** All Race and Ethnicity boxes are checked. It is not typical that all demographic groups can be directly targeted in most areas of Iowa. Please review your demographic data and reference page 5 of this Guide.

If you are aware of a specific group(s) which can be reached but not identified by the demographic percentages, please check then add a brief explanation in Part 8 Additional Consideration.

**Problem:** Persons with Disabilities was not checked. The Iowa Finance Authority requires all awarded projects to **target Persons with Disabilities**.

#### COMMUNITY CONTACT WORKSHEET – (See sample on page 11)

1st Column – Targeted populations – Separately list each group selected separately. This allows the reader to clearly understand the community contact which can assist to attract that group.

2nd Column – Community Contact - Follow instructions at the top of the page of the worksheet. Provide the contact's name, organization, address, phone number and/or email address for each community contact. A brief description of their previous experience working with the population listed in the first column. The date contact was made or will be made. How the contact plans to assist you with the AFHMP.

#### MARKETING ACTIVITIES – METHODS OF ADVERTISING WORKSHEET (See sample on page 12)

1st Column – Advertising Method – This column should list the name of the advertiser under the method of advertising.

List each targeted population in a separate column. The entire column should list advertising methods to reach the specific population. List if advertising uses alternative formats (e.g. braille, large print, alternate language, etc.). Use a separate column if identifying general advertising methods used to attract anyone regardless of population. If it is not possible to determine you can reach specific targeted populations when advertising it is general advertising.

Attach copies of advertising.

#### Sign and Date the Plan

The person responsible for implementing and reviewing the plan is required to sign and date the plan before it will be accepted.
