REQUEST FOR APPLICATIONS: IOWA STATEWIDE EMERGENCY SOLUTIONS GRANT & SHELTER ASSISTANCE FUND

The Iowa Finance Authority is requesting applications for the Iowa Statewide Emergency Solutions Grant (ESG) program and Shelter Assistance Fund (SAF) for the 2024 and 2025 Calendar Years. An estimated \$2.5 million each year in ESG funds may be available to fund approximately 25 awards and \$1.3 million each year in SAF funds may be available to fund approximately 25 awards.

APPLICATION DEADLINE: TUESDAY JULY 25, 2023, 4:30 PM

Stakeholder Consultation/Comments

The Iowa Finance Authority released a draft application for public comment through June 23, 2023. Written comments and IFA responses will be available on the ESG and SAF web pages for the 2024 and 2025 Program.

Competition Overview

Combined ESG and SAF Application

This is a combined competition for the ESG and SAF programs. Both programs fund Shelter, with similar requirements. ESG funds additional activities as described below. Some agencies applying for Shelter may be awarded funds through just one program, and some agencies may be awarded funds through both programs. This will be to balance the total available funds through both programs, and in most cases, it will not impact the total amount awarded to any particular agency. Agencies are assumed to be applying for funds through either program as applicable. The Iowa Finance Authority will determine which agencies are awarded funds through which program(s). Alternatively, an agency may take itself out of consideration for one or the other program by explaining this in the application.

Combined 2024 and 2025 Calendar Years

This competition will be for both the 2024 and 2025 calendar years. However, the funding request in the application will be for the 2024 year only. Likewise, initial awards will be made for 2024 only. Renewal awards for 2025 will be made in mid-2024, conditional on meeting compliance requirements. This plan may be adjusted by the Iowa Finance Authority as necessary.

Regional Homelessness Prevention and Rapid Rehousing

Agencies may apply to provide Homelessness Prevention and/or Rapid Rehousing assistance to serve within a designated region. Designated regions are Iowa Coordinated Services Regions (Coordinated Entry Regions). Polk County, Woodbury County, and Pottawattamie County each normally participate in separate Coordinated Entry Regions according to their separate HUD-designated Continuum of Care, but will be considered regions for this purpose. Each region has been assigned an eligible application amount for Homelessness Prevention and Rapid Rehousing dollars. Click on the link below for the section on the ESG page for the 2024 and 2025 ESG Program, and find the document titled ESG CY24 Eligible Application Amounts Per Region. Agencies may apply for up to this amount, with flexibility allowed between the two categories to meet regional needs.

In some regions, it may work best to have a single agency providing both Rapid Rehousing and Homelessness Prevention for the general population throughout the region. Other arrangements are also possible, for multiple agencies to provide these services within a region. For example, one agency may apply for Rapid Rehousing and a different agency for Homelessness Prevention. Or, one agency may apply to provide youth-focused services, another for domestic-violence-

focused services, and another for the general population. This is allowable, although agencies within a region should still coordinate together to keep the total amount requested within the regional limits. If total applications for these services within a region exceed the allowable application amount, applications may be in competition with each other to provide these services in that region, and the applications will be evaluated to determine which agency/agencies is/are best qualified in that region. The Iowa Finance Authority may request additional information from applicants and work with applicants directly to determine any award(s). Final award amounts may vary from eligible application amounts.

Eligible Activities: ESG

ESG funds may support the following activities:

1. Street Outreach

Funds in this category may be used to provide essential services necessary to reach out to unsheltered homeless persons in Iowa. Services may include connecting persons with emergency shelter, housing, or critical services. Services may also include providing urgent, nonfacility-based care to unsheltered homeless persons who are unwilling or unable to access emergency shelter, housing, or an appropriate health facility. Eligible families and individuals must qualify under

Category 1 of HUD's definition of homelessness. Eligible costs include engagement, case management, emergency health services, emergency mental health services, transportation, and services for special populations.

For full details of eligible activities, applicants should refer to HUD's ESG regulations at 24 CFR part 576.101.

2. Shelter

Funds in this category may be used to provide essential services to homeless families and individuals in emergency shelters in Iowa, as well as to operate emergency shelters in Iowa. Eligible families and individuals must qualify under Categories 1, 2, 3, or 4 of HUD's definition of homelessness.

Shelter: Essential Services. Eligible essential services activities include the following, with some restrictions: case management, child care, education services, employment assistance and job training, outpatient health services, legal services, life skills training, mental health services, substance abuse treatment, transportation, and services for special populations.

Shelter: Operations. Eligible operations activities include maintenance (including minor or routine repairs), rent, security, fuel, equipment, insurance, utilities, food, furnishings, and supplies necessary for the operation of the shelter. Where no appropriate emergency shelter is available for a homeless family or individual, eligible activities may include assisting with a hotel or motel voucher.

The Shelter category may include transitional shelter/housing programs--ONLY if such programs received federal FY 2010 Emergency Shelter Grant funds (in Iowa, these funds were awarded for the July 1, 2010 - December 31, 2010 grant period).

For full details of eligible activities, applicants should refer to HUD's ESG regulations at 24 CFR part 576.102.

3. Homelessness Prevention

Assistance in this category may be provided to individuals or families that qualify under Categories 2, 3, or 4 of HUD's definition of homelessness, or under HUD's definition of At Risk of Homelessness. Homelessness Prevention is currently the lowest federal priority for assistance in the ESG program.

Homelessness Prevention: Rental Assistance. Eligible activities include short- or medium-term rental assistance or rental arrears.

Homelessness Prevention: Other Financial Assistance. Assistance may include rental application fees, security deposits, last month's rent, utility deposits, utility payments, and moving costs.

Homelessness Prevention: Housing Stabilization and Relocation Services. Assistance can include housing search and placement, housing stability case management, mediation, legal services, and credit repair.

For full details of eligible activities, applicants should refer to HUD's ESG regulations at 24 CFR part 576.103-106.

4. Rapid Rehousing

Assistance in this category covers similar activities as Homelessness Prevention, but is for individuals or families that qualify under Category 1 of HUD's definition of homelessness.

Rapid Rehousing: Rental Assistance. Eligible activities include short- or medium-term rental assistance or rental arrears.

Rapid Rehousing: Other Financial Assistance. Assistance may include rental application fees, security deposits, last month's rent, utility deposits, utility payments, and moving costs.

Rapid Rehousing: Housing Stabilization and Relocation Services. Assistance may include housing search and placement, housing stability case management, mediation, legal services, and credit repair.

For full details of eligible activities, applicants should refer to HUD's ESG regulations at 24 CFR part 576.104-106.

5. Data Collection and Reporting

A subrecipient may use up to 5% of a grant to pay the costs of contributing to and reporting data from Iowa's designated Homeless Management Information System (HMIS) or DVIMS system for domestic violence (DV) victim services providers or legal services providers. These systems are currently operated by the Institute for Community Alliances.

Applicants will not include Data Collection and Reporting as part of their budget request in this application. Instead, they may choose to include this item in a later revised budget submitted after award.

6. Administration

A subrecipient may use up to 2% of an ESG grant for general management, oversight, and coordination of ESG activities. This does not include staff and overhead costs directly related to carrying out activities eligible in other cost categories, because those costs are eligible as part of those activities.

Applicants will not include Administration as part of their budget request in this application. Instead, they may choose to include this item in a later revised budget submitted after award.

Indirect Costs

In accordance with 2 CFR Part 200, as applicable, subgrantees may allocate indirect costs to any of the six eligible activities above.

2. Essential Services

Essential services for individuals and families in homeless and domestic violence shelters, including case management, child care, education services, employment assistance and job training, outpatient health services (to the extent that such health services are otherwise unavailable), legal services, life skills training, mental health services (to the extent that such mental health services are otherwise unavailable), substance abuse treatment services (to the extent that such substance abuse treatment is otherwise unavailable), and transportation (transportation that is necessary to provide services).

3. Data Collection and Reporting

These systems are currently operated by the Institute for Community Alliances.

Applicants will not include Data Collection and Reporting as part of their budget request in this application. Instead, they may choose to include this item in a later revised budget submitted after award.

Certifications & Assurances

Please see the section of the application for Certifications & Assurances, which contains selected (not all) key program requirements. An additional application section contains a Minority Impact Statement, which is required by the State of Iowa for grant programs.

Source of Grant Funding

The U.S. Department of Housing and Urban Development (HUD) makes ESG funds available to states for activities pursuant to Title 24 of the Code of Federal Regulations, Part 576 (24 CFR 576). The Catalog of Federal Domestic Assistance (CFDA) number for ESG is 14.231.

The Shelter Assistance Fund is funded with a portion of the Iowa Real Estate Transfer Tax.

Award Period

The first-year award period will be January 1, 2024, through December 31, 2024. Subject to certain conditions, the second-year award period will be January 1, 2025, through December 31, 2025.

Grant Awards and Amounts

An estimated \$2.5 million for each of the two calendar years in ESG funds may be available to fund approximately 25 awards and \$1.3 million for each of the two calendar years in SAF funds may be available to fund approximately 25 awards. Availability of funds and award amounts are contingent on the availability of funds from HUD and from the State of Iowa. Awards will be made on a competitive basis based on the evaluation criteria.

Note that if awarded ESG funds, the agency will be required to provide documentation of a 75% match.

The Iowa Finance Authority reserves the right to make changes in the competition at any time, including the right to require additional information from applicants, and to make final award determinations.

Evaluation Criteria

There are two types of overall applications: a) for Shelter and/or Street Outreach; and b) for Regional Rapid Rehousing and/or Homelessness Prevention. Applicants may apply for one or both. 100 points are available for each type of application. The scores for the Experience & Capacity and the Performance sections will apply to both types. An applicant that submits both types of applications will therefore receive two scores overall, each up to 100 points. Applicants that have never received an Iowa ESG or SAF grant AND do not have a qualifying data report to submit in the Performance section, will complete a New Applicants Only section instead of the Performance section.

Shelter & Street Outreach - 50 points

Regional Rapid Rehousing & Homelessness Prevention - 50 points

Experience & Capacity - 25 points

Performance - 25 points

New Applicants Only - 25 points instead of Performance section

Application Deficiency Review Period

An application deficiency review period will take place following the final application deadline. The Iowa Finance Authority will first review all applications for curable technical deficiencies such as missing required documentation. If there are curable deficiencies, IFA will notify agencies using the contact information in the application. Agencies will typically be allowed one week to correct deficiencies.

Navigating the Application System

Section Navigation: Navigate through the application using the links for sections on the left. Once all required questions in a section have been completed, the section icon will turn from a red "x" to a green "check". Note that a green "check" does not reflect whether all applicable questions have been completed; applicants are responsible for verifying that all information is complete and correct.

Printing and Saving: You may use the icons toward the top of your application screen to "Print," "Save," and "Save and Exit." You may also wish to save your narrative answers first in a Word document, and then copy and paste to the application when ready. This will avoid the possibility of being "timed-out" of the system.

Linking Additional Users to One Application: You may link a second user to your application. The second user must first create their own account in the system. Then the first user may log in, click on "View" in the header, select "MyIFA Account", then at the bottom of the screen, click on "Add New Authorized User," then enter the new user's username. Both users should now be able to access and work on the same application.

Multiple Projects; One Agency: Only one application will be accepted per agency. If your agency is submitting a request for funding for more than one project, the application responses should include information for each project. Since each question includes only one response field, your response should clearly identify which parts apply to which project.

Submitting: Before the system will allow an application to be submitted, every icon must show a green "check" at left. Any missing responses to required questions will result in remaining red "x's". Any required questions that are missing a response may be identified by clicking the link at the bottom left for the "Error Log." Note that the system doesn't validate answers; it only verifies that each question contains a response. Once submitted, the application may be viewed, but no further edits will be allowed.

Application and Program Questions

Email mollie.brees@iowafinance.com with questions about the ESG or SAF programs or this application. For a response before the application deadline, final questions should be submitted at least 72 hours in advance of the application deadline.

Questions about the federal ESG program (not on this particular application) may also be submitted to HUD's online Ask-A-Question help desk at the link below.

[Link to the HUD Help Desk at www.hudexchange.info](http://www.hudexchange.info)

Application Deadline Reminder: July 25, 2023, 4:30 p.m.

The application deadline is Tuesday, July 25, at 4:30 p.m. The system will not allow submissions past this time. To avoid technical delays, do not wait until the last day to submit your application. Note that the system is often slower on the day or two before the deadline, due to more users in the system at one time.
